[COMPANY ADDRESS]

Job Application for [POSITION]

Dear Hiring Manager,

About Me

I am a **results-driven Digitalization & AI Supervisor** with over **9 years of experience** leading OT digitalization and applied-AI initiatives across industrial production environments. I currently oversee digital transformation and AI strategy across **3 production facilities**, delivering measurable impact through **predictive maintenance**, **computer-vision-based safety systems**, **GenAI-powered automation**, and **energy & sustainability analytics**. I bring deep hands-on expertise in **PLC, SCADA**, and industrial protocols (**OPC UA, MQTT, Profinet**), balanced with strong software/cloud capability (**Node.js, React, Azure/AWS, Kubernetes**). Throughout my career, I have led cross-functional digital transformation programs, scaled OT data infrastructure to **300+ managed channels**, and championed a company-wide **AI Ambassador program** — all while sustaining **4 consecutive years of zero workplace accidents** in AI-monitored safety zones.

Why [COMPANY NAME]?

I am excited about the opportunity to work with **[COMPANY NAME]** because of your reputation for **innovation** and **leadership** in the industry. I am particularly drawn to your commitment to leveraging **advanced technologies** to drive **operational excellence**, and I believe my experience bridging **OT engineering**, **software development**, and **applied AI** aligns well with your mission. I am eager to contribute to your digital transformation goals while continuing to grow in a **dynamic, innovation-driven** environment.

Why Me?

I believe I am an ideal fit for the **[POSITION]** role given my proven ability to deliver **measurable results** at the intersection of OT and AI. At İnci GS Yuasa, I have led initiatives that reduced costs, improved operational efficiency, and strengthened safety outcomes — recognized with multiple **1st-place finishes** and an **Innovation Special Award** across İnci Holding's group companies, and further supported by **4 peer-reviewed scientific publications** in applied machine learning and industrial automation. My combination of hands-on OT/automation expertise, modern software/cloud skills, and cross-functional leadership gives me a unique perspective to help **[COMPANY NAME]** accelerate its digital transformation and AI adoption.

I would welcome the opportunity to discuss how my skills and experiences align with your needs. Thank you for considering my application. I look forward to the possibility of contributing to the continued success of **[COMPANY NAME]**.

Sincerely,

Emre CANCIOĞLU
